

major Major band info and links:

band recorded first record mar 07, released about a year later. played a few fun shows in austin. jason moved to europe. dave moved to europe. craig stayed in austin. new record? maybe to be done in sweden, since we're big there. gigs? i hope so, they were fun. we all do other things too, so the band was more about a chance to play live music in a bedroom. that's the one thing that will never change or go out of style or fall off a chart: people playing music for the joy alone. oh yeah, the hang, yeah that's fun too...
